PRESIDENT'S MESSAGE

We had an excellent turnout of students at our January meeting (20+). I thank everyone who took the time to speak with a student. It's important and very much appreciated.

With so many student members, we are having a second student night. This is why this month's theme is both refrigeration and student activities.

Once again, lets welcome the students!

Your President,
Karen Peck, P.Eng.

The theme for the February meeting is Refrigeration and Student Activities. At last month's meeting we hosted the University of Ottawa's student branch. This month we will be hosting the students from Algonquin with the technical session on Cooling Towers and Indoor Air Quality.

I was very pleased to see many of our members taking the time to introduce themselves to the students at last month's meeting. These students, whether from the University of Ottawa, Algonquin College or visiting from other cities will be the future of our industry. Please take the time to introduce yourself to the students that attend our meetings and make them welcome.
